

Northstar Analytics

Employee Handbook

Fictional source document for the EvalRAG AI RAG pipeline

About this document: Northstar Analytics is a fictional technology consulting company. This handbook contains source policies used to test document ingestion, retrieval, and grounded question answering.

1. About Northstar Analytics

Company Overview

Northstar Analytics is a fictional technology consulting company that develops data and artificial intelligence solutions for business clients. The company values responsible technology, clear communication, continuous learning, and protection of customer information.

Standard Workweek

The standard full-time workweek is 40 hours. Core collaboration hours are 10:00 AM to 3:00 PM Pacific Time, Monday through Friday. Teams may establish additional working-hour expectations when required by a client engagement.

2. Paid Time Off

Vacation

Full-time employees receive 15 paid vacation days per calendar year. Vacation requests of three or more consecutive workdays should normally be submitted at least two weeks in advance. Unused vacation may carry over to the next calendar year up to a maximum of five days.

Sick Leave

Full-time employees receive 10 paid sick days per calendar year. Sick leave may be used for an employee's illness, medical appointments, or to care for an immediate family member.

Company Holidays

Northstar Analytics observes 11 paid company holidays each calendar year. The annual holiday calendar is published by Human Resources.

3. Remote and Hybrid Work

Hybrid Schedule

Employees assigned to a hybrid role may work remotely up to two days per week. Unless a manager approves an exception, employees must work from their assigned office at least three days per week.

Remote Work Security

Employees working remotely must use company-approved devices and the corporate VPN when accessing internal systems. Confidential company information must not be stored on personally owned computers or removable storage devices.

Work Location

Employees must notify their manager before performing regular work from a location outside their assigned state. International remote work requires written approval from Human Resources and Information Security.

4. Information Security

Passwords and Authentication

Employees must use multi-factor authentication when it is available for company systems. Passwords must not be shared with coworkers, contractors, or external parties.

Sensitive Information

Customer records, credentials, financial information, unreleased product information, and internal security documentation are considered confidential. Confidential information may only be shared with people who have a legitimate business need and appropriate authorization.

Security Incidents

Suspected phishing, credential exposure, lost company devices, or unauthorized access must be reported to the Information Security team as soon as possible and no later than four hours after discovery.

5. Artificial Intelligence Use

Approved AI Tools

Employees may use company-approved generative AI tools for business tasks when permitted by their team. Employees must review AI-generated work before relying on it for business decisions.

Restricted Data

Passwords, authentication tokens, customer secrets, regulated personal data, and confidential source code must not be entered into public AI services.

Human Review

AI-generated content used in customer-facing materials, legal or compliance work, financial analysis, or employment decisions requires meaningful human review before use.

6. Expenses and Travel

Expense Reports

Business expenses must be submitted within 30 days of the transaction. Receipts are required for individual expenses of \$25 or more.

Meals

When traveling for approved business, employees may claim reasonable meal expenses up to \$75 per day unless a client contract specifies a different limit.

Air Travel

Employees should book economy-class airfare for domestic travel. Premium cabin travel requires vice-president approval unless an accommodation has been approved.

7. Professional Conduct

Workplace Conduct

Employees are expected to communicate professionally, collaborate respectfully, protect company and customer information, and comply with applicable company policies.

Conflicts of Interest

Employees must disclose financial or personal interests that could reasonably interfere with their responsibilities to Northstar Analytics.

Policy Questions

Employees who are unsure how a policy applies should contact their manager or Human Resources before taking action.
